Make your own Baton

Creating your own baton can be a delightful crafting adventure. Here's a simple method to craft your personalized conductor's baton:

Materials you'll need:

1. Paper straw
2. Ribbon
3. Glitter
4. Sequins
5. Glue
6. Scissors
7. Optional: Paints or markers to customize the straw to your favorite color

Instructions:

1. Choose your paper straw: Select a paper straw as the base for your baton. You can choose a color that matches your style or simply go with your favorite.
2. Decorate the straw: Use glue to add ribbon, glitter, and sequins to the paper straw. Get creative! You can wrap the ribbon around the straw, sprinkle glitter, and stick sequins to make it shine and sparkle. Make sure to let the glue dry completely.
3. Optional color customization: If you'd like to further personalize your baton, you can paint the paper straw with your favorite color using paints or markers. Allow the paint to dry completely before moving on to the next step.
4. Show off your conducting skills: Once your baton is decorated and dried, it's time to showcase your conducting skills! Hold the baton confidently and lead your imaginary orchestra with flair and precision.
